Q.15 **Sentences of a paragraph are given below. While the first and the last sentences (S1 and S6) are in the correct order, the sentences in between are jumbled up and named P, Q, R, S. Arrange the sentences in the correct order to form a meaningful and coherent paragraph.**

(S1) The poster ranks high as a medium of publicity.
(P) Advertisement can be displayed before a much larger number of persons for a longer time by means of a poster than by the expenditure of the same amount of money in the Press, and it is, therefore, often found to be the better means of keeping them in the public eye.
(Q) Nor must it be forgotten that a newspaper is bought by the reader, and on that account enjoys an enhanced value; and further, that the purchaser usually takes the paper home where it is perused by the whole household.
(R) It has, by reason of its size and the facilities which it affords for the use of colour, a very powerful effect on the public mind.
(S) It must, however, be remembered that the attention received by a newspaper is much closer and more intimate than that accorded to a poster.
(S6) If more is desired than the instantaneous impact on the mind, the advertising value of the poster falls sharply.

Comprehension:

Read the given passage and answer the questions that follow.

In the three days since schools reopened for junior students after two years, teachers are missing the familiar buzz in classrooms and have found a section of students to be unusually quiet. Some students are 'withdrawn', their social skills having been impacted by the long closure of schools. Teachers and counsellors are hopeful this would pass soon and till then they would have to be patient with the children and keep a close eye on their behaviour. "Children might have developed behavioural problems such as screen addiction and restlessness. They might have become impulsive and are not attentive to lessons. Teachers have to be proactive about the mental health of the child," said the psychiatrist.

Comprehension:

Read the given passage and answer the questions that follow.

In the three days since schools reopened for junior students after two years, teachers are missing the familiar buzz in classrooms and have found a section of students to be unusually quiet. Some students are 'withdrawn', their social skills having been impacted by the long closure of schools. Teachers and counsellors are hopeful this would pass soon and till then they would have to be patient with the children and keep a close eye on their behaviour. "Children might have developed behavioural problems such as screen addiction and restlessness. They might have become impulsive and are not attentive to lessons. Teachers have to be proactive about the mental health of the child," said the psychiatrist.
